

How to Reach us After-Hours

An important part of the service we offer to parents is telephone access to a pediatrician to help with urgent questions or problems that can't wait until regular office hours. We want you to feel secure in the knowledge that "we've got your back" 24/7 when it comes to children's' health.

There are three ways to reach us after hours:

- Call our main phone number, **831-462-5439**; this gets you our answering machine where you can leave messages. We check the mailbox every hour up until 8pm.
- For more urgent problems or after 8pm, call **831-462-5401**. Our answering service will take your message and reach the doctor on call.
- For non-acute problems or questions, you may email us at healthykidzdoc@gmail.com or through this website. Note that we don't necessarily check email every day.

We appreciate it when parents wait until regular office hours to call us about routine, non- urgent problems.

For prescription refills, please call your pharmacy and leave a request with them. They will contact us.

Thank you for your consideration and cooperation.
